 - 17.11.2019: Departure

Further details can be provided upon request.

We agree with your statement that the World Cup Series and World Cup Finals are important IAU projects and see our application as a contribution towards the further positive development of these projects. We also took note that you expect our federation should increase its engagement. Not only in the context of the present application, we believe that our federation is already highly engaged towards a positive development of the IAU. On the other hand, we would suggest to rather addressing your expectations to the federations that do not show any engagement at the moment.

We hope for a favourable consideration and positive response to our application.
Thank you in advance and kind regards

GERMAN SHOOTING SPORT & ARCHERY FEDERATION
